

Appendix 2

Form for declaration of cancellation Need emergency care in daycare and school

General

A right to emergency care is only granted within a very restrictive framework so that the closure of facilities prevents or delays the development of infection chains. If the prerequisite for emergency care is not met, the child will not be admitted.

Emergency care is only an option if

- **both** custodians or the sole custodian or, in the case of handling regulations, the person currently custodian for the application in the areas of critical infrastructure (see Appendix 1) and are prevented from looking after the child due to business or operational reasons. **only one** of the legal guardians is active in the following areas and is prevented from looking after the child due to business and operational reasons and care cannot be secured by the other legal guardian:
 - o Healthcare and care,
 - o Rescue service (including professional fire brigade),
 - o TRANSIT
 - o Police or prison service,
 - o School service and day care for children (including pupils in final classes with their own children who need childcare),
 - o Local or state administration if a custodian is entrusted with the task of combating the corona pandemic.

The prerequisite for emergency care is that the children and their legal guardians

1. have no symptoms of Covid-19 disease, and
2. have not been in contact with a person infected with SARS-CoV-2 or 14 days have passed since contact with a person infected with SARS-CoV-2 and they have no symptoms of the disease Covid-19.
This does not apply to persons with legal guardianship who work in the health care sector and who care for sick patients while exercising their work and using the appropriate protective equipment for Covid-19.

We would like to point out that the following information must be truthful and complete.
